

## Building 11 Rooftop Solar Array

### Physical layout and Individual Panel Layout

The building 11 rooftop solar array consists of two separate arrays.

Each individual module has its own designator

Using a plan view of the arrays the top layer is numbered as:

Reading right to left: A1-A6 ---→ E1-E6 (total of 30 modules)

Using a plan view of the arrays the bottom layer is numbered as:

Reading right to left: F1-F6 ---→ L1-L6 (total of 42 modules)
